## SUMMARY

Dinesh is an observant watercolor artist who has taught himself the art form. My main focus is on capturing the unique beauty and atmosphere of Toronto cityscapes and moody landscapes. My approach to art is to blend representational elements with abstract elements, creating a balance between realistic and emotional expressions. I believe that art has the power to evoke deep emotions and create a connection between the viewer and the painting. I am constantly exploring new techniques, and pushing my creative boundaries to produce powerful and impactful works. I am also deeply interested in the study of color theory and composition. In addition to my artistic pursuits, I am also dedicated to educating myself about contemporary art and its role in society.
